Gentlemen:

Re: Printing Republic of Haiti Bank Notes.

The bank notes used by the Republic of Haiti have been printed heretofore in your institution. You are therefore familiar with the notes and with all of the necessary details. However, in the past orders have been placed through the Supply Department of The National City Bank, of which the Banque Nationale de la Republique d'Haiti was an affiliate. On the 8th of July, 1935, this affiliation was discontinued and the stock of the Banque was acquired by the Treasury Department of the Republic of Haiti. In passing, I may mention that under the contract of sale this bank will continue to act as the correspondent of The National City Bank in the Republic of Haiti.

In order to provide for our future needs, we are interested in having the following information at your early convenience:

1. Can you change the existing plates so as to take the signatures of the new officers, without our going to the expense of having new plates engraved?
2. What period of time do you estimate as necessary between receipt of an order and delivery?
3. Will you please quote us prices on the different denominations for which you have plates. In this connection, you might look over our last orders so as to get minimum and maximum quantities such as the Banque has been accustomed to order in the past.

Any additional information which you require, or which will be of use to us in connection with the placing of orders for the engraving of bank notes for the Republic of Haiti will be of interest to

Banque Nationale de la République d'Haïti,
Port au Prince, Haïti.

Dear Sirs:-

We beg to acknowledge receipt of your letter of July 23rd wherein you advise that your affiliation with The National City Bank of New York has been discontinued and we take this opportunity to respectfully offer our best wishes for the success of the bank under its new Direction. We will at all times be ready to serve you to the utmost of our ability and trust the cordial relations existing between our institutions in the past may be continued for many years to come.

With reference to your first question - the signatures on your notes have not been engraved on the plates, but have been typed on by us. therefore no change in the plates will be required if you desire us to print new signatures on the notes. The titles of the signing officers are however engraved on the plates and if these are to be changed, it will be necessary to alter the plates. This we will be pleased to do without additional cost to yourselves.

As to the time required for delivery we cannot give you definite information on this in advance of receiving an order, as it depends so largely on conditions in our plant at the time the order is placed.

Banque Nationale de la République d'Haïti.

August 24, 1935.

As a general guide we might say that an order for notes to be exactly the same as last furnished, that is a reprint order, we could probably make a partial shipment in about two and a half months, with further shipments each week or two, until completion of the order, the total time, of course, depending on the quantity of notes to be prepared. If changes are to be made in the plates or if new engravings are to be prepared, additional time would be required.

You may be sure that we will always do whatever we possibly can to meet your requirements, should you be in urgent need of notes but we take the liberty of suggesting that whenever possible you place your orders in advance of actual need as the notes will wear better if they are not placed in circulation immediately upon completion, but are held a while to allow the paper to thoroughly season and the inks to harden completely.

In accordance with your request we are quoting prices on quantities which have been ordered in the past. They are figured on the present cost of labor and materials and of course if an order is placed within a reasonable time. We must reserve the right to change them should conditions make such action necessary.

For furnishing notes in the quantities stipulated, the notes to be in all details the same as we last furnished, except for the signatures and change of signature titles, if required as mentioned above, our prices would be as follows:-

Banque Nationale de la République d'Haïti.

August 24, 1935.

2,000,000	- 1 Gourde	notes	- at the rate of \$ 9.00 per thousand

U. S. Currency, F.O.B. New York.

As we have been favored with but one order for the higher denominations and as quantity has a great bearing on our cost we are also, for the purpose of comparison, quoting on double these quantities as follows:-

1,000,000	- 5 Gourdes	Notes	- at the rate of \$ 13.50 per thousand						
200,000	- 10	"	" " " " " "	20.00	"	"

80,000	- 100	"	" " " " " "	30.00	"	"			

U. S. Currency, F.O.B. New York.

Should the quantities we have given above not be in accord with your requirements we will be only too glad to give you figures on what your needs may be at any time.

If changes are to be made in the engravings other than those above mentioned, or if new designs, or additional denominations are to be engraved, the additional charge would depend on the amount of work to be done.

Assuring you of our desire to be of service to you, we remain,

Yours very truly,

Natl Bank of the Rep. of Haiti

Mr Henry Phillips of Natl City Bank told me over telephone that his bank relinquished control of the above to the Haitian Government on July 8, 1935. The present Board of Directors consists of 6 members - 4 of whom are Americans. Two of the American members represent protective committee for Haitian bonds floated in U.S. The bank is assuming all the fiscal treasury services of the republic.

Financially conditions are very satisfactory in Haiti - a surplus has been carried forward

for some years. Their budget has been balanced for the past several years - and their financial surplus from prior years has always been more than sufficient to absorb any deficits which have developed.

New York, N.Y.

Dear Sir:-

With reference to our recent conversation concerning the printing of notes for your bank we beg to advise that if we are favored with an order for 2,000,000 - 1 Gourde notes and 1,000,000 - 2 Gourdes notes, to be in all respects the same as those we last furnished of the respective denominations, except for the numbers, we would be able to have some of both denominations ready for shipment in approximately 8 weeks after receiving the order and would be able to complete the 1 Gourde notes in 7 weeks and the 2 Gourdes notes in 3-1/2 weeks after making the first partial shipment. Partial shipments could be made each week during that time.

In connection with the contemplated change of the vignette we are enclosing herewith face models of the 1 Gourde and 2 Gourdes notes, which you requested us to prepare, to indicate how the notes would look with the portrait of President Vincent in place of the vignette previously appearing thereon.

To engrave a portrait of the President, which could be used on either the 1 Gourde and 2 Gourdes notes or both would cost \$3,000.00 U.S. Cy.

Mr. W. H. Williams, Vice Pres. and Director
Banque Nationale de la République d'Haïti.

September 18, 1935.

Our price for printing the notes with the new vignette would be the same as for a reprint order, as set forth in our letter of September 11th, namely - at the rate of \$9.00 per thousand, U.S. Cy., F.O.B. New York.

If the order is placed with us for notes bearing the new vignette we could have some of each denominations ready for shipment about 19 weeks after receipt of the approved models and could have additional quantities of notes ready each week thereafter completing the 1 Gourde notes in 7 weeks and the 2 Gourdes notes in 3-1/2 weeks after the first partial shipment.

It is our understanding that no change is contemplated in either the text or design of the faces or backs of the present notes other than the change of the vignette, as mentioned above.

Incidentally the picture of President Vincent shown on the enclosed models is a photographic reproduction of one we have on hand. When it is engraved the detail will be brought out more clearly and will be more pleasing than the photograph. However, if a different pose is desired kindly furnish us with another photograph and the engraving will then be done accordingly.

In answer to the cable we received from your bank we have cabled today as follows:-

Refer to your wire of 15th cost engraving portrait vignette which could be used for 1 or 2 Gourdes notes or both would be 3,000 dollars U.S. Currency stop. 3,000,000 notes 2 denominations with portrait vignette could have some of both denominations ready for shipment about 19 weeks after approval of models completing 1 Gourde 7 weeks 2 Gourdes 3 weeks 1/2 thereafter stop For notes just the same as previously furnished could have some of both denominations ready for shipment 8 weeks after receiving your order completing 1 gourde 7 weeks 2 Gourdes 3 weeks 1/2 thereafter.

Mr. W. H. Williams, Vice Pres. and Director
Banque Nationale de la République d'Haiti.

September 18, 1935.

We are also sending to the bank at Haiti a copy of
this letter.

With assurance of our desire to be of service to your
Institution, we remain,

Yours very truly,

Manager Foreign Department.

Att. Mr. Charles Blackmore,
Manager Foreign Dept.

Gentlemen:—

We refer to your letter of August 24th, containing quotations relative to the printing of new Banque notes and also to your letter of September 18th, 1935, confirming that you could be in a position to have a certain quantity of the 1933 type (with the exception of signatures) of one and two gourde notes ready for shipment in approximately eight weeks after receiving the order, and furthermore that you would be able to complete the one gourde notes ten weeks after making the first partial shipment.

In brief, we have now decided upon the following:—

- to have you rush the printing of 2,000,000 pieces of 1933 type One's.
- to have you place in hand immediately the preparation of engraving of the new plate with President Vincent's bust instead of the Citadelle.
- to have you print 1,000,000 pieces of new type Two's, using the President's vignette, just as soon as sample of the work can be returned to you approved.

We find it necessary to have a new supply of one 1933e notes prepared and shipped to us within eight weeks and this will mean that there can be no change in the vignette on this note. Upon receipt of this letter, kindly enter our order for the following notes, to be in all respects, the same as those you last furnished in February and March 1935, except for the numbers and the signatures:

Quantity	Denominations	Numbers	Series
1,000,000	1 Gourde	000001 - 1,000,000	U
1,000,000	1 Gourde	000001 - 1,000,000	V

In total 2,000,000 notes of One Gourde at 3.00 per thousand B.E.C. 6,000.00

We understand from your letter of August 24th that inas-
much as it will be only necessary to print new signatures and numbers
on the notes you will be in a position to make a partial shipment about
the beginning of December with further shipments each week or two until
completion of the order. However, inasmuch as we are anxious to receive
the first shipment at the earliest possible moment, we would appreciate
your making every effort to advance the initial delivery date as much
as possible.

The titles of the signing officers as shown on the bills
will remain the same, but you are instructed to print new signatures on
the notes as follows:-

<u>New Signature will be</u>	<u>Title</u>	<u>In Place of</u>
S. de la Rue	Un Administrateur	C. E. Mitchell
W. H. Williams	Un Directeur	H. F. Voorhies
Jonathan Duclervil	Pour Controle le Com- missaire du Govt. pres la Banque	J. J. P. Audain

not valid for filing

In envelope
We are enclosing herewith cards bearing specimens of the signatures
of Messrs. de la Rue, Williams and Duclervil, which are to be used
for reproducing signatures on the new notes. A specially prepared
gourde note is attached for your guidance.

Kindly acknowledge receipt of the present and advise
us what is the earliest date that we may expect the first shipment to
leave New York.

Concerning the matter of insurance on the various ship-
ments, please advise us if you are in a position to effect this for our
account, and if so, with what company and what would be the keenest
rate procurable.

With regard to Paragraph 3 of your letter of September 18th,
we hereby accept your price of Three thousand Dollars U.S. Cy. (\$3,000)
for the engraving of a portrait of President Vincent and, the pose on the
model enclosed by you having received the approval of the authorities,
we authorize you to proceed with the making of this engraving, effective
upon receipt of the present letter. We note that the detail on the fi-
nished product will show up to better advantage than on the photographic
reproduction appearing on the model and therefore as soon as the engraving
has been completed, we request you to forward us a sample of a One gourde
note and a Two gourde note printed from the new plate in order that we may
submit them to the Government for final approval. At that time, we shall

Dear Sirs:-

We beg to acknowledge receipt of your letter of October 2nd reference C-11.-8. together with a specimen note and signatures enclosed therewith.

In accordance with the instructions therein we have entered your order for 2,000,000 - 1 Gourde notes, to be in all respects the same as those we last furnished with the exception of the signatures and the numbers.

We expect to have ready 250,000 notes to go forward by the steamer of November 28th, 250,000 by the steamer of December 5th and 500,000 each week thereafter, completing the order by the steamer of December 26th, which we trust will meet your requirements. If you desire us to do so we can insure the shipments under our open policy with the Federal Insurance Company, whose rate at present is .15¢ per \$100.

We have also commenced the engraving of the new face dies for the 1 and 2 Gourde notes bearing the portrait of President Vincent, on completion of which we will forward proofs to you for your approval. It is our understanding from your letter that you will at that time place with us an order for 1,000,000 - 2 Gourdes notes and we presume it is your desire that we hold the new engraving of the 1 Gourde note on hand subject to your future instructions.

Banque Nationale de la République d'Haïti.

October 8, 1935.

Incidentally when ordering notes of the new design, is it your intention that they be printed in the same colors as the present notes or would you prefer that the colors be changed ? If the latter is the case, we will on receipt of your advices plan to present the die proofs to you in the colors you select.

Will you please be good enough to note your approval on the models submitted to you with our letter of September 18th and return them to us so that our records will be complete.

Yours very truly,

Manager Foreign Department.

Gentlemen:

We are in receipt of your letter of the 8th instant, advising us that you have entered our order for 2,000,000 one gourde notes, to be in all respects the same as those last furnished, with the exception of the signatures and the numbers.

We note that you expect to have 250,000 notes to go forward by the steamer of November 28th, 250,000 by the steamer of December 5th and 500,000 each week thereafter, completing the order by the steamer of December 26th. This is satisfactory to us.

It will be in order for you to insure the shipments under your open policy with the Federal Insurance Company, the rate being 15 cents per \$100.

We also note that you have commenced the engraving of the new face dies for the one and two gourde notes bearing the picture of President Vincent and that upon completion of the same proofs will be forwarded to us for our approval. We are returning, herewith, duly approved, the models submitted in your letter of September 18th. In giving our approval to these models, we do so with the understanding, as expressed in your letter of September 18th, that the portrait of President Vincent in the completed note will be more clear as to detail and more pleasing in appearance than the photographic reproduction used in preparing the models returned herewith.

You are correct in your understanding that upon approval by us of the definite proofs as above described, we will place an order with you for 1,000,000 two gourde notes. The new engraving of the one gourde note is to be held by you subject to our future instructions. Notes of the new design are to be printed in the same colors as the present notes.

Gentlemen:

✓
Att. General Manager.

It has come to my notice that the Todd Check Writer Co., Rochester, N.Y., is endeavoring to obtain business with the Banque Nationale, this City thru their appointed Agent, and as a matter of fact the Todd Export Manager passed ~~thru~~ here about two months ago and called at the Bank.

Of course you no doubt know that the National City Bank, ~~here~~ 55 Wall St., New York City, has disposed of all their interests in the Banque Nationale to the Haitian Government, consequently, all purchases will be done thru the officials at the Bank here.

I have learned confidentially that the Todd Company ~~here~~ is making an effort to supply the Bank here with new GOURD PAPER NOTES, and knowing that your Company always has supplied the Bank here with all denominations of GOURD NOTES, I feel certain from what I have learned confidentially, that I can be of valuable service to your Company in obtaining future business.

I know that it will not be long before the Bank will need quite a large supply of new one and two Gourd Notes and a supply of notes in larger denominations, and due to my personal and friendly relations with two Officials my services would prove to our mutual interests.

Will gladly refer you to the Underwood Elliott Bisher Company, 342 - Madison Ave., New York City, Export Dept., and the Brunswick Balke Callendar Co., 623-633¹/₂ South Wabash Ave., Chicago, Ill, whom I represent in this Territory.

Awaiting your comments, etc., I am

Very truly yours,

Dear Sir:-

We thank you for your letter of November 11th, and for the information contained therein.

In reply we beg to inform you that we maintain very friendly relations with the Banque Nationale de la Republique d'Haiti, whose notes we have supplied for many years, as you know, and we feel confident that the service rendered by this Company will merit their confidence in the future. Of course we are not at liberty to divulge any business we get from our customers, but we feel the Bank would have no objection to our stating, in view of the third paragraph of your letter, that the matter has already been discussed with us, and we are, therefore, unable to avail ourselves of the offer of your services in this connection.

If there is any other business you can turn our way, such as checks, drafts, stock certificates, etc., we shall be very glad to take your offer under advisement.

We believe that these arrangements will be quite satisfactory to us but should conditions develop which might make it desirable to have shipment advanced slightly, we shall advise you in due season.

Yours very truly,

ON DECK:—Merchandise and/or goods shipped on deck are insured:—Free of particular average unless caused by the vessel being stranded, sunk, burnt, on fire, or in collision, but including jettison and/or washing overboard, irrespective of percentage. In case of loss or injury to any part of a machine consisting, when complete for sale or use, of several parts, these assurers if liable therefor under the terms of this policy, shall only be liable for the insured value of the part lost or damaged. In case of damage affecting labels, capsules or wrappers, these assurers, if liable therefor under the terms of this policy, shall be liable only for an amount sufficient to pay the cost of new labels, capsules or wrappers, and the cost of reconditioning the goods.

The risks covered by this policy are to include damage to or destruction of the goods hereby insured, resulting from explosion, howsoever or wheresoever occurring, provided same is shown not to have been caused by or attributable to any of the risks excluded by the terms of the "Free of Capture and Seizure" and the "Riots and Civil Commotions" Clauses in this policy.

Notwithstanding any average warranty contained herein, these assurers agree to pay any landing, warehousing, forwarding, or other expenses and/or particular charges for which this policy in the absence of such warranty would be liable. Also to pay the insured value of any package, piece, or unit totally lost in loading, transhipping or discharge.

Where this policy by its terms covers while on docks, wharves, or elsewhere on shore and/or during land transportation, such coverage shall include the risks of collision, derailment, or overturning of the conveyance, fire, cyclones, hurricanes, earthquakes, floods (meaning the rising of navigable waters), and/or collapse or subsidence of docks, and to pay loss or damage caused thereby, even though the insurance be otherwise F. P. A.

Including General Average and Salvage Charges according to United States Law and usage and/or as per Foreign Statement and/or as per York-Antwerp Rules (as

prescribed in whole or in part) if in accordance with the Contract of Affreightment. This insurance attaches from the moment the goods, being at the risk of the Assured, leave store, warehouse or factory at initial point of shipment, and covers continuously thereafter during the ordinary course of transit until safely deposited in store, warehouse, or factory at final point of destination. On shipments to the River Plate, however, notwithstanding the foregoing, the risk of fire under this policy shall cease upon arrival at any shed (transit or otherwise), store, Custom house, or warehouse; or upon the expiry of 10 days subsequent to landing, whichever may first occur.

This insurance shall not be vitiated by any unintentional error in description of the voyage or interest, or by deviation, or by transhipment, or by any interruption of the ordinary course of transit from causes beyond the control of any Assured hereunder. Warranted, however, that prompt notice shall be given this Company of such error, deviation, transhipment, or interruption and additional premium paid if required. Held covered while on craft to and from the vessel. Each lighter or craft to be considered as if separately insured. The Assured not to be prejudiced by any agreement exempting lightermen from liability.

The Assured are not to be prejudiced by the presence of the negligence clause and/or latent defect clause in the Bills of Lading and/or Charter party. The seaworthiness of the vessel as between the Assured and the assurers is hereby admitted, and the wrongful act or misconduct of the shipowner or his servants causing a loss is not to defeat the recovery by an innocent assured if the loss in the absence of such wrongful act or misconduct would have been a loss recoverable under the policy.

Should there be an accumulation of interests beyond the limits expressed in this policy by reason of any interruption of transit beyond the control of the Assured, or by reason of any casualty, and/or at a transhipping point and/or on a connecting steamer or conveyance, this policy shall attach for the full amount at risk (but in no event for more than twice the policy limit) provided written notice be given to this Company as soon as known to the Assured.

Special Conditions

Covering against all risks of loss or damage to the merchandise insured howsoever occurring irrespective of percentage.

Gentlemen:-

Enclosed please find one of the gourde notes made by your Company for this Bank which has been split into two pieces.

Both we as the bank of issue, and the Government of Haïti, are anxious to have information from you as to whether or not these gourde notes are printed on two pieces of paper which are placed together afterwards. We are very well aware that notes made of paper thick enough to stand wear can probably be split, but on the other hand we are anxious to have your assurances that the bills are not made up separately back and front and joined together.

We would appreciate having your prompt reply by airmail, and with our thanks in advance, we beg to remain,

Dear Sirs:-

In reply to your letter of May 6th, reference C-11.8, we beg to assure you that your notes were printed on both sides of single sheets of paper which, we are convinced, after testing papers made both in this country and abroad, is the best paper obtainable for the printing of bank notes.

Actually all paper can be split, even such stock as newsprint. The qualities which give durability to bank note paper are the very ones which make it possible to split such paper more readily than the ordinary cheap papers. Some printers maintain that they use paper which cannot be split but we have yet to see any instance where such a statement has been borne out in fact.

The matter of split bank notes is an old story, instances of which have been brought to our attention over a period of half a century or so, but we do not think it a matter which need cause great concern as we fail to see how any one could benefit by such action for it is hardly likely that the two halves of the note would be redeemed twice for double the value of the note. We might also add that even tissue paper can be split requiring only time and patience to do so.

We are returning herewith the note you sent us and beg to thank you for having given us the opportunity to explain this circumstance to you.

FROM "ANNUAL REPORT OF THE FISCAL REPRESENTATIVE - HAITI"
 FOR THE FISCAL YEAR Oct '35 to SEPT 1936. Currency S. De La Rue. Fiscal Repres.

The gains in foreign trade and revenues in 1935-36 were not accompanied by any marked increase in money circulation. The fact that the import trade, which gives the best measure of the volume of domestic business, showed no increased activity, gives a reasonable explanation of why an increase in currency circulation failed to result from the rise in export values.

*For details regarding this contract, see Annual Report of the Fiscal Representative, fiscal year 1934-35, page 79.

HAITI: REPORT OF FISCAL REPRESENTATIVE

89

Notes, subsidiary coins, and estimated United States currency in circulation on September 30, 1936, and on September 30, 1935, are given below:

	Sept. 30, 1936 Gourdes	Sept. 30, 1935 Gourdes
X Notes of the Banque Nationale de la République d'Haiti	6,910,883 X	6,660,705 X
United States currency (estimated).....	2,200,000	2,125,000
Subsidiary currency	3,733,148	3,582,300
	<u>12,844,031</u>	<u>12,368,005</u>

The circulation of notes of the Banque Nationale de la République d'Haiti, averaged over a number of years, reaches a peak in March when cotton and sugar exports are added to the usually fairly heavy shipments of coffee exported in that month. From that month, circulation diminishes gradually, and reaches its lowest level in August in the middle of the "dead season".

The fiscal year 1935-36 was no exception to the usual sequence, except that note circulation did not reach its lowest point until September.

Averaged over the year, note circulation amounted to Gdes. 7,879,959 in 1935-36, compared with Gdes. 7,914,191 in 1934-35. Note circulation is still far below the average recorded in the boom period of five years ending in 1929 when average circulation rose to Gdes. 13,581,258.

Gentlemen:-

As you are aware the paper currency of the Republic of Haiti is issued by this bank and this currency for some years has been made up for us by your company.

We received over our counter yesterday the enclosed 2 gdes note which after a close examination appears to be a perfect genuine bill.

However you will note that the series and the numbers do not appear.

We would be pleased to have you examine this note and let us know if you consider it a genuine bill and whether or not a chemical action could not have caused the numbers to disappear.

Another possibility is that the bill slipped through without being numbered.

On any event we would be pleased to have your comments.

LABORATORY REPORT

MR. A. A. Wittnebel, ManagerDATE August 2nd, 1937Banque Nationale de La Republique d'HaitiMr. Blackmore's letter to Mr. Treadwell, dated July 19th, 1937

Examination of the mutilated 5 gourdes bank note of the Republique d'Haiti indicates that this condition is due to the action of a strong alkali which has discolored the note and the original tint.

Our fiber analysis indicates that the paper is 100% rag and the photographs also reveal that the signatures correspond with those of the specimen notes. It is our opinion that this is an authentic print and that the mutilation is due to being in contact with a strong alkali which may have been intentional or accidental.

Gentlemen:

Att: Mr. Charles Blackmore, Manager Foreign Dept.

We find it necessary to renew our supply of one-gourde notes, and request that upon receipt of this letter you kindly enter our order for the following notes to be in all respects similar to those you furnished in response to our order of October 2, 1935, with the exception that President Vincent's portrait is to appear on the new notes and the numbers will be different.

<u>Quantity</u>	<u>Denomination</u>	<u>Numbers</u>	<u>Series</u>
1,000,000	One Gourde	000,001 to 1,000,000	W

upon the understand^{ing} that the price will be \$9.00 per thousand as before, or a total of \$9,000.00.

We still have a fair stock of new One-gourde notes which we have not yet placed in circulation, so that there is no urgency with respect to the execution of the present order. We suppose that you will be able to commence shipments before the end of the year.

You will recall that the engraving of a portrait of President Vincent cost \$3,000, as advised in your letter of September 18, 1935, and that receipt of this amount was acknowledged by you on January 29, 1936.

Kindly acknowledge receipt and advise us if the present order has been accepted by you under the same conditions as the last one, and also let us know if the order can be delivered within the next four or five months.

Dear Sirs:-

Your letter of August 16th, reference C-11.8, has come to hand and we beg to thank you for your valued order to prepare 1,000,000 - 1 Gourde notes of your institution, to be numbered W000001 to W1000000 and bearing the portrait of President Vincent but otherwise the same in all respects as the 1 Gourde notes prepared against your order of October 2, 1935.

As regards the price we would say that the figure of \$9.00 per thousand on your last order was predicated first on 2,000,000 - 1 Gourde notes and subsequently extended to the additional quantity of 1,000,000 - 2 Gourde notes, or in other words a total of 3,000,000 notes in 2 denominations. Quantity has a great bearing on unit cost, other factors being equal, as the larger the quantity the greater the distribution of fixed make-ready cost and for the present order of but 1,000,000 notes we should really receive a slightly higher figure. Furthermore, as you undoubtedly know, there has been since 1935 a material increase in the cost of materials and labor.

Nevertheless, as we are endeavoring to maintain prices as long as possible at the low level heretofore prevailing we agree in this instance to accept the price of \$9.00 per thousand or say a total of \$9,000.00 U.S.Cy. F.O.B. New York and are entering your order accordingly. We beg, however, to make the reservation that this figure be not understood as an established

HAITI: REPORT OF FISCAL REPRESENTATIVE

105

For the Fiscal Year October 1936 - September 1937

last year but during the entire depression period. On the whole, commercial establishments have adjusted themselves well to the generally lower scale at which business is being carried on.

Currency

Currency circulation in Haiti on September 30, 1937, and on the same date of the previous year, is shown in the table below:

	Sept. 30, 1937 Gourdes	Sept. 30, 1936 Gourdes
Notes of the Banque Nationale de la République d'Haiti.....	7,115,347	6,910,883
United States currency (estimated).....	2,300,000	2,200,000
Subsidiary currency	3,936,888	3,733,148
Total	13,352,235	12,844,031

Circulation figures give an excellent index of business conditions in Haiti, but in drawing conclusions, proper consideration should be given to the various factors which influence circulation.

The total recorded at September 30, 1937, reveals a small gain over the figure for the same date of the previous year. The fact that there was any gain at all is surprising in view of the fact that the 1936-37 coffee crop was valued at Gdes. 5,951,835 less than the value of the previous year's crop. It is reasonable to suppose, therefore, that the gain in money circulation reflects a real gain in general business activity and in importing. Also, export commodities other than coffee are becoming of increasing importance in the export list. Bananas, in particular, have brought new money into the country and have had a noticeable effect on money circulation; and this gain has come not only from the sale of the fruit, but from the not inconsiderable capital outlay for plantation development and for construction of buying stations, wharves and other requisites of the large-scale program now being undertaken by the fruit company. The further extension of sisal plantations during the past year also influenced money circulation.

Money circulation at the end of each of the last eight fiscal years is shown in the table below:

Date	Gourdes
September 30, 1930.....	16,139,694
" " 1931.....	13,948,659
" " 1932.....	11,782,252
" " 1933.....	13,417,448
" " 1934.....	14,176,331
" " 1935.....	12,368,005
" " 1936.....	12,844,031
" " 1937.....	13,352,235

The figures show a steady gain during the past three years. Judging from money circulation alone, the country has nearly regained its position in 1934, and in prior years, when United States government expenditures in Haiti made an important contribution to the total monetary circulation

OVER.

of the country. Even with the help of American expenditures, money circulation recorded on September 30, 1932, amounted only to Gdes. 11,782,252. The corresponding figure in 1937 was Gdes. 13,352,235, indicating a sizable gain from the mid-depression low.

Circulation of notes of the Banque Nationale de la Republique d'Haiti during 1936-37 averaged Gdes. 8,090,877, compared with Gdes. 7,879,959 in 1935-36, and Gdes. 7,914,191 in 1934-35. With the exception of one month (February), note circulation throughout 1936-37 exceeded circulation in corresponding months of the previous year. As usual note circulation reached a peak in March.

Claims

The annual budget each year contains a special appropriation "Restitutions and claims". This fund is used for: 1) the settlement of judgments awarding pecuniary damages against the State; 2) the payment of cash indemnities or damages as a result of simple admission, where the parties concerned arrive at a basis for settlement without recourse to the courts; 3) the adjustment of pension or salary claims where it is administratively determined that such payments are due and payable; and 4) the settlement of valid claims against the State for services rendered in cases where for one or another reason it is impossible to liquidate the bill within the fiscal year in which the services were rendered.

The budgets of the past several years have each carried an appropriation in the amount of Gdes. 91,200.00 for the payment of "restitutions and claims". Of the appropriation in the latter amount for the fiscal year 1937, the sum of Gdes. 91,089.37 was utilized. Of the total amount available only Gdes. 10,123.46 were disbursed as a result of court judgments; balance, Gdes. 14,184.25 were expended in settlement of claims; Gdes. 2,410.38 for the adjustment of pensions and salaries; and Gdes. 64,371.28 for the settlement of past due bills for services rendered.

The fact that awards as a result of court judgments were significant. In former years, most of the appropriation was used for the settlement of court awards. Recently, however, the government has diminished noticeably, and at the same time, pecuniary awards have decreased. It will be noticed that in 1937 money was awarded administratively in settlement of claims; whereas in former years awards were awarded as a result of court judgments. Further, the total amount expended as indemnities or awards in settlement of court judgments was only a fraction of the amount expended in 1935-36 or in previous years for this purpose.

This trend away from expensive, and often involved, litigation is decidedly gratifying. Persons who believe their interests in some way have been harmed by some action on the part of the government are learning that if their claims are justified they can obtain proper redress without

ON DECK:—Merchandise and/or goods shipped on deck are insured:—Free of particular average unless caused by the vessel being stranded, sunk, burnt, on fire, or collision, but including jettison and/or washing overboard, irrespective of percentage. In case of loss or injury to any part of a machine consisting, when complete for use or use, of several parts, these assurers, if liable therefor under the terms of this policy, shall only be liable for the insured value of the part lost or damaged. In case of damage affecting labels, capsules or wrappers, these assurers, if liable therefor under the terms of this policy, shall be liable only for an amount sufficient to pay the cost of new labels, capsules or wrappers, and the cost of reconditioning the goods.

The risks covered by this policy are to include damage to or destruction of the goods hereby insured, resulting from explosion, howsoever or wheresoever occurring, provided same is shown not to have been caused by or attributable to any of the risks excluded by the terms of the "Fees of Capture and Seizure" and the "Riots and Civil Commotions" Clauses in this policy.

Notwithstanding any average warranty contained herein, these assurers agree to pay any landing, warehousing, forwarding, or other expenses and/or particular charges for which this policy in the absence of such warranty would be liable. Also to pay the insured value of any package, piece, or unit totally lost in loading, transhipping or discharge.

Where this policy by its terms covers while on docks, wharves, or elsewhere on shore and/or during land transportation, such coverage shall include the risks of collision, derailment, or overturning of the conveyance, fire, cyclones, hurricanes, earthquakes, floods (meaning the rising of navigable waters), and/or collapse or subsidence of docks, and to pay loss or damage caused thereby, even though the insurance be otherwise F. On shipments to the River Plate, however, notwithstanding the foregoing, the risk of fire under this policy shall cease upon arrival at any shed (transit or otherwise), store, Custom house, or warehouse; or upon the expiry of 10 days subsequent to landing, whichever may first occur.

This insurance shall not be vitiated by any unintentional error in description of voyage or interest, or by deviation, or by transhipment, or by any interruption of the ordinary course of transit from causes beyond the control of any Assured hereunder. Warranted, however, that prompt notice shall be given this Company of such error, deviation, transhipment, or interruption and additional premium paid if required.

Held covered while on craft to and from the vessel. Each lighter or craft to be considered as if separately insured. The Assured not to be prejudiced by any agreement exempting lightermen from liability.

The Assured are not to be prejudiced by the presence of the negligence clause and/or latent defect clause in the Bills of Lading and/or Charter party. The seaworthiness of the vessel as between the Assured and the assurers is hereby admitted, and the wrongful act or misconduct of the shipowner or his servants causing a loss is not to defeat the recovery by an innocent assured if the loss in the absence of such wrongful act or misconduct would have been a loss recoverable under the policy.

The 2 Gourdes Note No. M090408 received with Mr. C. T. Blackmore's letter of February 8th last is a good note. It was printed on Order No. F8442, dated August 3, 1927, which called for 1-1,000,000, in which this note was included.

The face and back are printed in #9 Blue from steel plates over Major Tint work on the face only. The face of this note is considerably blurred at the top and through the title.

The large lathe work counter at the left end on the back of the note is also blurred at the top.

The rest of the steel plate printing for both face and back is in fairly good condition, which indicates that this note was not completely immersed in a vehicle solvent or softener with any ill intent, as it appears that this note has been in prolonged contact with an alkali solvent for the parts mentioned and then immersed in hot water and rubbed locally as indicated by the blurred parts.

My report of July 27, 1928 covers in detail two 2 Gourde Notes of the same issue that had been acted on in a similar manner by laundry solutions.

The numbering checks with our regular numbering heads as used for this job as may be seen on comparing specimen of numbering herewith.

The secret marks are all clearly seen in their regular positions, as three on the face and three for the back of the Note.

The paper shows the usual planchettes although a few had been loosened in testing.

Dear Mr. Williams:-

The writer has recently returned from an extended trip to South America, on which he left suddenly just after you called upon us and left with us the two Gourdes note No. MO90408, for a report as to its genuineness. We ask you to please accept our apologies for our delay in sending you this report.

Our examination reveals that this is a genuine note of your Bank. As you know, the face of this note is considerably blurred at the top and through the title; the large lathe work counter at the left hand on the back is also blurred at the top. The rest of the steel printing is in fairly good condition, which indicates that this note was not completely immersed in a vehicle solvent or softener with any ill intent. It appears that this note has been in prolonged contact with an alkali solvent, and then immersed in hot water and rubbed locally, as indicated by the blurred parts, as if it had been through a laundry.

Since we have seen other notes in a similar condition after they have gone through a laundry, it would seem as if the condition of the note was purely accidental and that it was not defaced intentionally.

February 24, 1939

We have made an examination of the numbers and they check with our regular numbering heads which we used when we printed the order of which this note formed a part.

The paper shows our usual planchettes, a few of which have been removed in testing.

We are returning to you enclosed herewith the two Gourdes note No. M090408, subject matter of this report.

Gentlemen,

Att: Mr. Charles Blackmore, Manager Foreign Department.

It may be necessary for us to renew our supply of five-gourde and ten-gourde notes soon and in order to be prepared we request that you inform us as early as possible:-

200,000 bills of Gdes. 5 each ^{Rev. F8465} - 100,000 bills of Gdes. 10 each ^{Rev. F8466}

- 1) What would be the cost per thousand pieces.
- 2) How soon after receipt of the new specimen signature could you make delivery.

According to our records, the last shipments of Five's and Ten's were made by you during the period March to July 1928 and were as follows:-

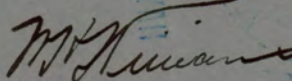

5 gourde notes - C000.001-C500.000 :- Gdes 2,500,000
10 gourde notes - B000.001-B100.000 :- Gdes 1,000,000

The designs would be exactly the same as in 1928 but the three signatures would be different. The specimens for "Un Administrateur" Mr. S. de la Rue and "Un Directeur" Mr. W. H. Williams are already on file with you but it would be necessary for us to procure and send you the third specimen, namely, "Pour contrôle. Le Commissaire du Gouvernement près de la Banque".

We ask that you calculate the price for these notes as closely as possible, because we believe that there should be a reduction in 1939 price quotations as compared with 1928 at which time practically all prices were much higher than today.

Your early reply will be appreciated.

Dear Sirs:-

Attention Mr. W. H. Williams,
Vice President and Manager

We beg to acknowledge receipt of your esteemed favor dated May 5th, reference No. C. 11.8, requesting our quotation for furnishing a further supply of your 5 and 10 Gourdes notes.

These two denominations we understand are to be exactly the same as those previously supplied by us in 1928, with the exception that the three signatures for typing thereon are now to be as follows:- that of Mr. S. de la Rue - under the title "Un Administrateur"; that of Mr. W. H. Williams - under the title of "Un Directeur", - both of which facsimile signatures we have on file, - and a new signature, specimens of which you will send us, which will appear under the title of "Pour contrôle le Commissaire du Gouv't près de la Banque". The numbers, of course, would be continued consecutively for each of the respective denominations of notes.

In line with the above details we are pleased to give you the following quotations:

Banque Nationale de la République d'Haiti -2-2

May 9, 1939

200,000 of 5 Gourdes notes at \$16.00 per 1000....\$3,200.00

of a total of.....\$5,300.00 U.S.

Currency, F.O.B. New York which, you will be pleased to note, is a lower price than for the previous order.

The entire order could be completed and ready for shipment about nine weeks after we are in receipt of the new specimen signature.

Thanking you for this inquiry and trusting that we may have the honor of being favored with your order, we remain

The 10 Gourdes note of the above Bank No. BL25210 received with Mr. G. W. T. Combs' letter of May 15th is a counterfeit.

The genuine notes were printed by us on Order No. F 8466 dated September 2, 1927, which called only for 100,000 notes of the "B" series, so that this number was not included.

The face and back were printed on scattered planchette paper from steel in #42 Green, over Major Tint work in red, green, purple, blue and yellow for the face only.

This counterfeit has been very roughly handled; the paper is very soft and spongy, and it also has the appearance of passing through the laundry, as mentioned in Mr. Combs' letter, but this may have been done purposely to cover up the variations with the genuine note.

For further identification, I have had photographic enlargements made of corresponding sections in both.

Test #1 shows the variation in the lines for the lathe work of the upper right hand corner, as the heavy lines of the counterfeit cross about at right angles vertically and horizontally. This same test shows the difference in the form of figures used by us.

Test #2 shows variations in large counter on the back at the right end of the counterfeit.

Test #3 is a photographic enlargement of the signatures. It not only shows the difference in form, but, as they were all enlarged to the same scale in one operation, there is also considerable difference in size.

Test #4 is an enlargement of the Pay Clause on the back of the Note. This is in small white face block lettering in four lines. In the counterfeit this clause is in three lines and it is very illegible.

This counterfeit has been entirely and very crudely redrawn and printed from intaglio plates on a very poor grade of cotton fiber paper. As said before, it has been very roughly handled and possibly laundered, which has caused most of the ink to flake off leaving only a light green film of ink attached to the spongy surface of the paper.

The vignettes are so weak on both the face and back, it is not possible to make any comparisons with the genuine note.

The tint work on the face has also been redrawn and varies greatly with the genuine. It is also so weak that it was impossible to get clear enlargements, but it appears to me that surface plates were used here.

Dear Sirs:-

Attention Mr. W. H. Williams,
Vice President and Manager

We are in receipt of your letter of the 10th instant, as also the 10 Gourdes note No. B125210 mentioned therein.

Our examination of this note discloses it to be a counterfeit. It is very probable that the bearer's statement made to you is true regarding this note having gone through a laundry, for it has this appearance. However, this may have been done purposely in the hope of the counterfeiter being able to cover up the many variations which are easily discernible in comparison with a genuine note.

As you will no doubt recall, the genuine notes of the 10 Gourdes denomination were printed and delivered by us in 1928, - these being part of an order which was placed with us through the National City Bank of New York in July 1927, and consisted of a total of 100,000 notes of Series B. Therefore you will observe that the number appearing on the counterfeit in question - "B125210", was not included.

This counterfeit has been entirely and very crudely redrawn and printed from intaglio plates on a very soft and exceedingly poor grade of cotton fiber paper. It has been very roughly handled and, as said before, possibly laundered, which has caused most of the ink to flake off, leaving only a light green film of ink attached to the spongy surface of the paper.

May 25, 1939

The tint work on the face of the counterfeit has also been redrawn and varies considerably from the genuine note.

In order to enable you to make further identification we have had the four photographic enlargements made which we enclose herewith, of the corresponding sections of both the counterfeit and genuine notes, and we are pleased to add the following explanations pertaining to the results of some of the tests we have made for your guidance:-

Test #1 shows the variation in the lines for the lathe work of the upper right hand corner, as the heavy lines of the counterfeit cross about at right angles vertically and horizontally. This same test shows the difference in the form of figures used by us.

Test #2 shows variations in large counter on the back at the right end of the counterfeit.

Test #3 is a photographic enlargement of the signatures. It not only shows the difference in form, but, as they were all enlarged to the same scale in one operation, there is also considerable difference in size.

Test #4 is an enlargement of the Pay Clause on the back of the Note. This is in small white face block lettering in four lines. In the counterfeit this clause is in three lines and it is very illegible.

We are also returning herewith the counterfeit 10 Gourdes note No. BL25210 which you sent us and trust that we have covered the matter to your entire satisfaction.

In conclusion we wish to thank you for your courtesy in allowing us to examine this counterfeit.

Yours very truly,

 Assured, whichever may first occur. No additional risks (whether of delay or of any other description) are insured under this clause, which is intended merely to continue the insurance

- (a) if it is to be on board an overseas Vessel (for the purpose of this clause 4 an overseas Vessel shall be deemed to mean a Vessel carrying the interest from one port or place to another where such voyage involves a sea passage by that Vessel).
 - (b) after being discharged overseas from an overseas Vessel at the final port of discharge.

(c) after expiry of fifteen days counting from midnight of the day on which the overseas Vessel is safely anchored or moored at the final port of discharge, whichever shall first occur,

the interest is safely anchored or secured) until the interest is on board the oncarrying overseas Vessel.

In the event of the exercise of any liberty granted to the Shipowner or Charterer under the contract of affreightment whereby such contract is terminated at a port or place other than the destination named therein such port or place shall be deemed the final port of discharge for the purpose of this clause 4.

5. Subject to the terms of Clause 4 above and to any conditions or warranties which may be endorsed hereon, it is agreed that this insurance shall not be vitiated by deviation, over-
carriage, change of voyage, or by any error or unintentional omission in the description of interest, Vessel or voyage, provided the same be communicated to this Company as soon as possible to the Assured and an additional premium paid, if required.

6. And in case of any loss or misfortune, it shall be lawful and necessary to and for the Assured, his or their factors, servants and assigns, to sue, labor and travel for, in and about the defense, safeguard and recovery of the said goods and merchandises, or any part thereof, without prejudice to this Insurance; nor shall the acts of the Assured or Assurers, in recovering, saving and preserving the property insured, in case of disaster, be considered a waiver or an acceptance of an abandonment; and to the charges whereof, the said Assurers

will contribute according to the rate and quantity of the sum hereby insured.

7. General Average and salvage charges (resulting from a peril hereby insured against) payable according to Foreign Statement or York-Antwerp Rules if in accordance with the contract of affreightment.

8. The assured shall pay hereunder, the description and valuation of the merchandise, the sum insured, the voyage and the ports of loading on and discharge from the overseas vessel, shall be determined by reference to this Certificate and shall be deemed incorporated herein; and losses payable hereunder shall be adjusted and settled in the same manner as provided for in the said Certificate. It is agreed, however, that this war risk insurance is a separate contract and (excepting as expressly provided in this clause 8) is not subject to any terms or conditions contained in or endorsed on the Certificate to which it is incorporated.

Gentlemen,

Att : Mr. Charles Blackmore
Manager Foreign Department.

It may be necessary for us to renew our supply of gourde notes within the next few months and in order to be prepared we request that you give us the following information :-

1. What would be the cost c.i.f. Port-au-Prince of One million bills of One gourde each?
2. When would delivery be made?

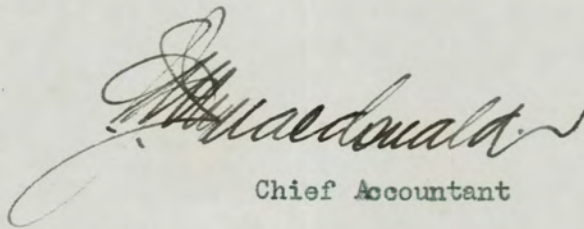

According to our records, the last shipment of one's was made by you in December 1937 and consisted of W000,001 to W1,000,000. G. 1,000,000

The design would be exactly the same as in 1937 but one of the three signatures would be different namely that appearing under the title of "Pour controle, le Commissaire du Gouvernement près la Banque " for which the new signature of Mr. Charles Rouzier was sent you with our letter of May 27th. 1939 when we ordered a shipment of G.5 and G.10 notes.

As before, we ask that you calculate the price for these notes as closely as possible.

Your early reply will be appreciated.

Yours very truly

We take pleasure in acknowledging receipt of your letter of April 26th, (reference C 11-8), inquiring as to our price for furnishing a further supply of your One Gourde notes, the last order for which we had the honor of executing in December 1937, and which consisted of 1,000,000 notes of this denomination, Nos. For 1,000,000 - One Gourde notes, exactly the same as those we previously furnished you, with the exception of the numbers, which would now be X000001 to X1000000, and the signature under the title of "Pour controle, le Commissaire du Gouvernement près la Banque", which is to be changed to that of Mr. Charles Rouzier, as sent us with your letter of May 27, 1939, we are pleased to quote you a price of \$9,000.00 U.S. Currency, C.I.F. Dear Sirs:-

In our letter of May 8th we had the pleasure of giving you a quotation and delivery promise on a proposed new supply of bank notes in accordance with your letter of April 26th, reference C 11-8.

Since we wrote to you, conditions throughout the world have changed and we now face the problem of rising costs in materials, manufacturing and taxation. While at this writing we can still maintain the price and delivery promise we gave you, we cannot now foretell for how much longer we could be able to do so.

As old and esteemed clients that you have been of this Company, we feel it is our duty to advise you of the possibility of a raise in prices in the near future and we therefore take the liberty of suggesting the advisability of looking into your bank note requirements for the future with the idea of our protecting you, as much as possible, in the matter of price.

Please feel perfectly free to call on us for any further information you may desire as we would be very pleased to be of service to you.
